What is the "nexus"?

1. The initial observation: weak interaction between humanitarian actors and development actors

- More frequent and more prolonged seizures
- Insufficient funding

The risks of operating in isolation:

- Non-sustainability of services
- Increased reliance on humanitarian aid
- Community tensions between those receiving aid and others
- Stopping or slowing down development projects
- Poor targeting / prioritization in resource allocation
- Non-achievement of objectives

The advantages of creating a "link":

- Invest resources more efficiently in more sustainable services
- Empowerment and resilience of beneficiary populations
- Strengthening of social cohesion
- Continuation of development projects with new approaches
- Redirection of funds to priority needs
- Better achievement of objectives

Better

- relevance,
- · efficiency,
- impact speeches

1. What is the "nexus"?

2. Historical overview and conceptual framework

A new slogan but an old concept....

1990 - Emergency-rehabilitation-development link

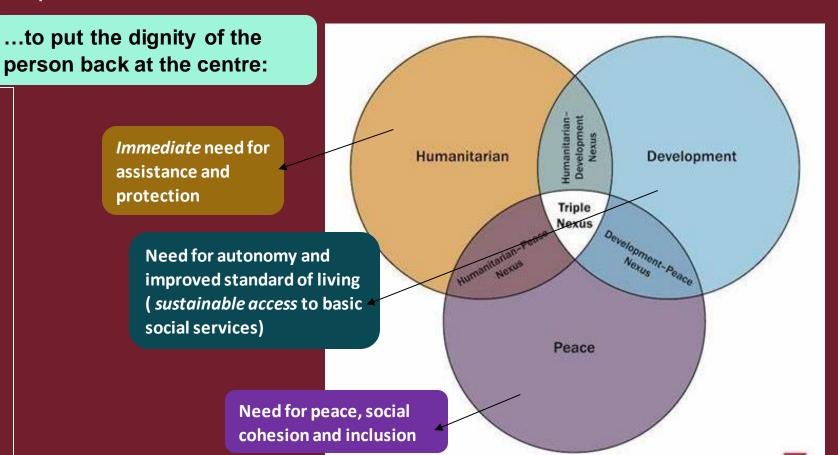

2000 - Protracted Crises Where chronicles (contiguum) => resilience

2015 - SDGs: don't leave person behind

2016 - Agenda for Humanity: Working

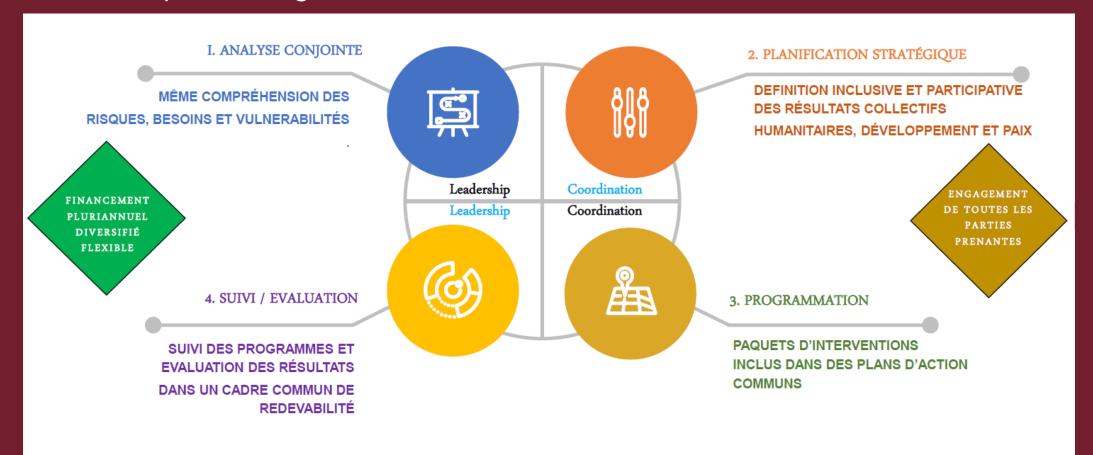

Together Differently to End

Need (New Way Of Working)

What is the "nexus"?

3. The new way of working based on collective results

What is the "nexus"?

4. "Easy to say, but difficult to implement": The challenges of the nexus

Apparently divergent principles

Different goals

A distinct time horizon

Different and sometimes contradictory approaches

Separate funding mechanisms with a gap in the middle

HUMANITARIAN PRINCIPLES

- Humanism
- Neutrality
- Impartiality
- Independence operational

GOALS

Save lives, restore the situation before the cries

HORIZON

Short term

WASH ACTIVITIES

Distribution of kits, repair of water points, construction of latrines, water delivery free by tank truck

DEVELOPMENT PRINCIPLES

- Appropriation
- Harmonization
- Alignment
- Results-Based Management
- Responsibility mutual

GOALS

Improve living conditions

HORIZON

Medium or long term

WASH ACTIVITIES

Construction of new water points, self-construction of latrines capacity building, O &M
