

Running for water

Keeping girls in school in Uganda

Every day, in Uganda, girls have to walk more than a kilometre carrying 20 litre containers of water on their heads. That means that they miss out on school.

On Sunday 12 March, IRC staff, family and friends will run the Hague's City Pier City to help change this situation.

Please sponsor IRC in this fundraiser. With € 10,000 we will ensure that 1,500 people get sustainable access to safe water. We will also reduce the distance girls in this community have to walk to collect water so that they can spend more time in school.
